Vito Zuccarello **Architetto**

Luogo, Spazio, Tempo, Colore, Materiali, Luce.
Elementi che giustapponendosi, creano emozioni; elementi che miscelandosi, pur mantenendo la propria identità vibrano sotto la luce.
Un luogo è costituito da molteplici spazi da vivere nel tempo, da cogliere attravero i loro Colori ed attraverso la loro Materialità.
Il tutto sotto la luce, altrimenti è Buio.

Site, Space, Time, Colors, Materials, Light.
Juxtaposing elements that create emotions; that mixes elements while maintaining their own identity vibrate under the light.
A site is consisting of multiple spaces to be lived over time, to be seized their through Colors and through their materiality.
Everything under the light, otherwise it is Dark.

Vito Zuccarello - Catania 1977 - laureato presso l'Università degli studi di Reggio Calabria con una tesi di progettazione architettonica.
Dopo un lungo periodo fatto di studio e lavoro, fonda nel 2007 lo studio V.Z. Architettura & Design occupandosi di commesse private. La tipologia di lavoro spazia da progetti per edifici residenziali a progetti d'interior design, da spazi commerciali a spazi espositivi, da ristoranti ad alberghi, per finire nella progettazione di mobili e di oggetti d'arredo.
Non da meno sono le esperienze acquisite su progetti in ambito internazionale come la Federazione Russa e la Repubblica Maltese

Vito Zuccarello - Catania 1977 - graduated from the University of Reggio Calabria with a thesis on architectural design.
After a long period of study and work done, founded in 2007, the study VZ Architecture & Design, dealing with private contracts. The type of work ranges from designs for residential projects of interior design, from commercial space to exhibition spaces, from restaurants to hotels, to finish in the design of furniture and decorative objects.
Not least are the experiences of international projects such as Russian Federation and Maltese Republic.

Pavimenti e Rivestimenti, luci ed arredo sono tutti elementi determinanti per la casa; il loro stile ed il loro spirito definiscono il carattere dell'ambiente e ne determinano l'atmosfera.

Floors and Coverings, lights and furniture are all determining factors in the home; their style and their spirit define the character of the environment and determine the atmosphere.

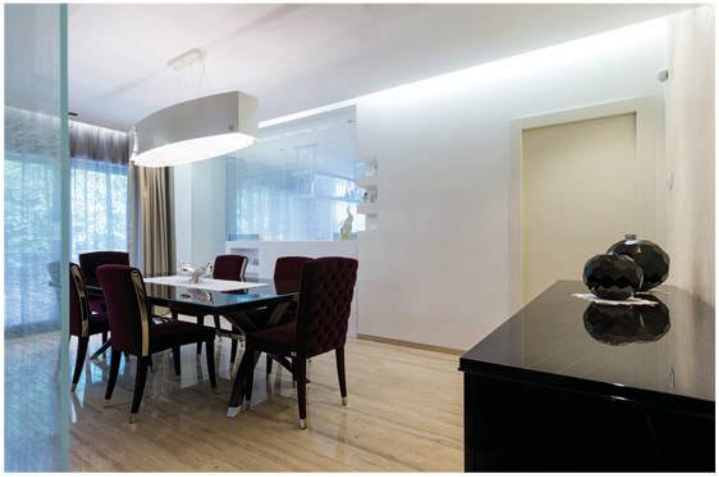

“i dettagli non sono dettagli ....”

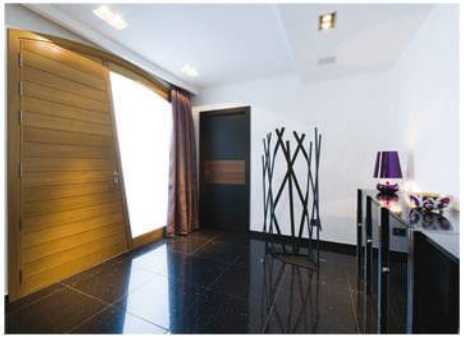

“the details are not details ....”

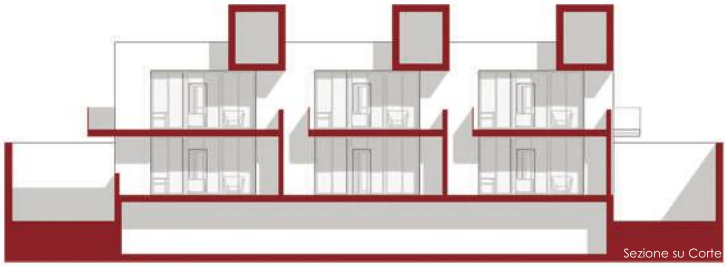

Prospetto A. de Gasperi

Sezione su Corte

The presence of balconies and terraces is an important factor in decision-making; to rely on additional space, albeit reduced, allows you to expand the indoor environment and provides an appreciable opportunities, especially during the summer, to extend outwards.

La presenza di balconi e terrazzi costituisce un importante fattore decisionale; poter contare su uno spazio aggiuntivo, seppur ridotto, permette di ampliare l'ambiente interno e offre un'apprezzabile opportunità, sopratutto durante la bella stagione, di estendersi verso l'esterno.

Dedicati e distinati a un pubblico giovane più ironico, con la voglia di godere fuori dagli schemi, anticonvenzionale nei rivestimenti e alternativo nelle forme, a volte quasi aggressive.

Dedicated a young public more ironic, with the desire to enjoy outside the box, unconventional in coatings and alternative forms, at times almost aggressive.

PROGETTI - PROJECT

"Le pareti acquistano un aspetto radioso e curato, espressione di una bellezza naturale e sofisticata a un tempo."

"Walls take on radiant and manicured look, pure expression of natural and, at the same time sophisticated beauty."

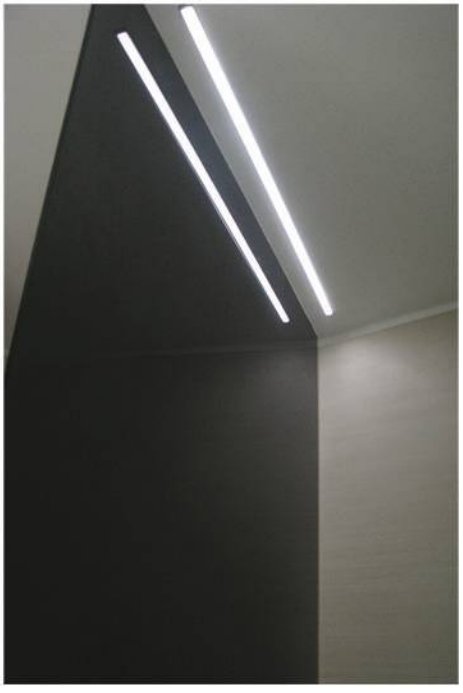

Divani e poltrone, tavoli e sedie sono tutti elementi determinanti per l'arredo del soggiorno, il loro stile, ed il loro spirito, definiscono con puntualità il carattere dell'ambiente.

Sofas and armchairs, tables and chairs are all essential elements for the furniture of the living room, their style, and their spirit, with punctuality define the character of the environment.

La luce non serve solo a “vedere” ma anche a mettere in risalto dettagli architettonici, arredi di design.

The light is not only "see" but also to highlight architectural details, designer

Il bagno è il luogo dove tutti noi iniziamo e concludiamo la giornata, dove ci prendiamo cura di noi stessi e dove inizia il nostro benessere.

The bathroom is the place where we all begin and conclude the day, where we take care of ourselves and our well-being where it starts.

Estetica pura in chiave moderna: pavimento in travertino romano e pareti intonacate sono sufficienti a rappresentare uno spazio privato.

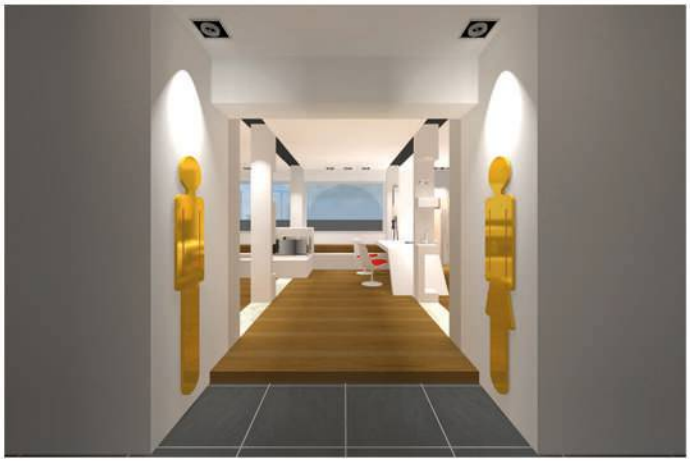

Pure aesthetics in a modern key: roman travertine floor and plastered walls are adequate to be representative a private space.

Dream Hotel

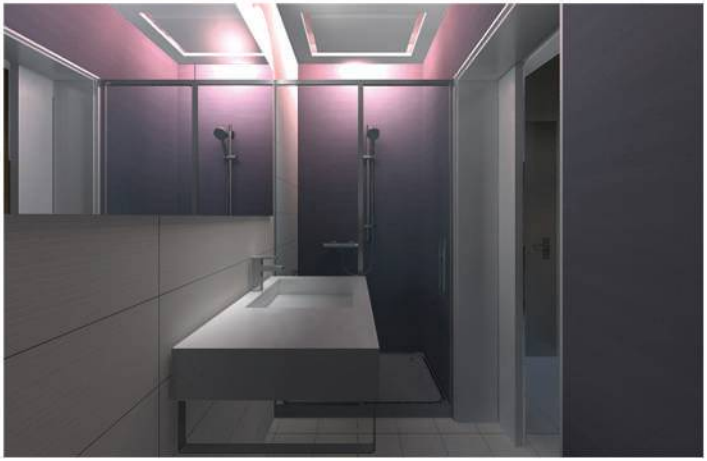

In un mondo che diventa sempre più effimero, torna la voglia di cose concrete: in quest'ottica, rimane ben saldo il desiderio di circondarsi di mobili d'arte, progettati e realizzati ricalcando i procedimenti e le tecniche dell'antica tradizione ebanistica.

Reception

Restaurant

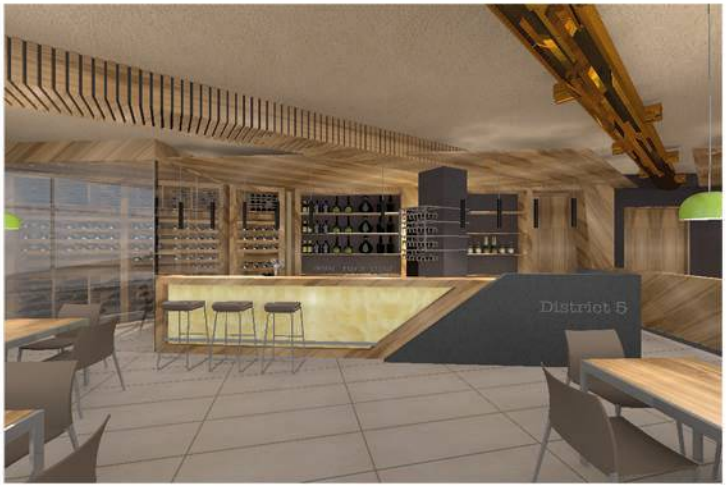

In a world that is becoming increasingly ephemeral, back the urge to concrete things: in this context, it remains firmly in the desire to be surrounded by art furniture, designed and made by tracing the processes and techniques of the traditional cabinet making.
